

VISUAL SYMPTOMS AFTER CONCUSSION STUDY

Volunteers Needed for a Research Study!

We are examining two approaches for managing
visual symptoms after concussion

You may be eligible if you are

- between 18 and 35 years old
- experienced a concussion between 30 days and 1 year ago
- are experiencing symptoms related to your vision

You will be placed in one of the following groups

Group 1: 2 visits with home based strategies

Group 2: 8 visits with office and home based strategies

All visits will happen at 550 University Ave

*You will be compensated for your time
